

BUCK 's business is development, production and trade of lighting equipment and spare parts. In the business processes, BUCK pays special attention to the quality of its products and their compliance with the requirements of their customers.

We have therefore established, implemented, maintained and continuously developed the quality management system for medical devices in accordance with the requirements of ISO 13485. Our company is focused on social and responsible business activities that fully comply with laws and regulations.

Our vision is to contribute to the quality of lighting and its positive impact on people and the environment.

We are committed to:

- The fulfillment of all applicable requirements of the standard ISO 12485 - Quality of medical devices;
- The continuous improvement of our quality management system.

BUCK d.o.o. implements this vision and commitment in the following by:

- Permanent commitment and focus of all activities on the satisfaction of users and other stakeholders.
- Setting targets and reviewing them in accordance with this Policy;
- Provision of all necessary resources - financial, human, technical and necessary knowledge;
- Involving all employees through training and awareness-raising for their contribution to the successful functioning of the system;
- Management that takes the lead in this regard;
- Compliance with all legal and other requirements;
- Continuously tracking the needs of the market and innovating our supply and modernizing production;
- Development of mutually beneficial relationships with external suppliers.

The policy is publicly available and is subject to regular reviews.
